# QUICK START GUIDE

For a full explanation of all features and instructions, please refer to the User's Guide.

## 1. Setting up your Digital Video Baby Monitor

MODELS:  
MBP35S,  
MBP35S-2,  
MBP35S-3,  
MBP35S-4

### A. Connecting the power supply for the Baby Unit

Connect the small plug of the power adapter to the Baby Unit and the other end to a suitable mains power socket.  
Only use the enclosed adapter (5V DC/1000mA). Ensure the ON/OFF switch is switched to the "ON" position.

### B. Installing the battery pack for the Parent Unit

The rechargeable battery pack supplied should be installed so that the parent unit can be moved without losing the link and picture from the camera unit(s). Charge the battery in the parent unit before you use it for the first time or when the parent unit indicates the battery is low. Insert the wire tab of the rechargeable battery pack into the contact slot as shown and fit the battery pack into the compartment.

### C. Fastening the cover for the Parent Unit

Place the battery compartment cover over the battery, making sure the battery wires are carefully pushed down and the cover fits properly.  
Use a small cross-head or flat-end screwdriver to tighten the screw and secure the cover, as shown.

### D. Connecting the power supply for the Parent Unit

Connect the small plug of the power adapter to the parent unit and the other end to a suitable mains power socket. Only use the enclosed adapter (5V DC / 600mA). Recommend charging at least 12 hours before first use.

### WARNING:

Strangulation Hazard. Children have STRANGLED in cords. Keep this cord out of the reach of children (more than 1m away). Never use extension cords with AC Adapters. Only use the AC Adapters provided.
